Work experience

Sonect — *Kyiv, Ukraine*
BACK END LEAD — *Mar 2020 – Present*
- I am building Back end for a digital ATM for your smartphone, which enables you to withdraw cash at shops like bars, coffee shops or pharmacies. After we rolled out our service in Switzerland we are now working on establishing a global footprint. Our aim is for you to be able to withdraw cash wherever you are, if it's at a bar in Zurich or at the beach in Bali.
- My main responsibilities: Delivery. Code Quality. Follow and improve code quality standards; Contribute ideas through your knowledge of evolving backend technologies; Be proactive in communication with team members and client; Be a part of a positive and fun team environment. Use industry best practices of development processes & tools, adapt and improve them; Analyze and Estimate;

BillBeez — *Kyiv, Ukraine*
SENIOR/LEAD BACK END DEVELOPER — *May 2019 – Mar 2020*
- I was responsible for writing the web services and APIs and other microservices used by front-end developers. Also was responsible for server-side web application logic as well as the integration of the front-end part.
- Main responsibilities: Compile and analyze data, processes, and codes to troubleshoot problems and identify areas for improvement. Collaborating with the front-end developers and other team members to establish objectives and design more functional, cohesive codes to enhance the user experience. Developing ideas for new programs, products, or features by monitoring industry developments and trends. Recording data and reporting it to proper parties, such as clients or leadership. Participating in continuing education and training to remain current on best practices, learn new programming languages, and better assist other team members. Taking lead on projects, as needed.
